FUND BALANCE

The Undesignated, Un-appropriated Fund Balance is one measure of Albany County's overall financial health. Also known as surplus, the fund balances listed on the next page can be appropriated by the Legislature as part of the budget process to address instances in which appropriations exceed anticipated revenues. If, by the end of the fiscal year, actual expenditures exceeded revenues received, the surplus can also be used to offset the shortfall in revenue. Conversely, if revenues received exceed expenditures, the surplus will increase at the end of the year. The fund balance can be appropriated only as part of the budget process and cannot be appropriated or utilized once the budget has been adopted. It is important to note that a fund balance is an accounting tool and isn't completely backed by cash in the same manner as reserves.

The information in the chart on the next page, as reported in the County's Annual Financial Report to the State Comptroller's Office, is a snap shot of the conditions on December 31, 2017. The surplus is used as a diagnostic tool by rating agencies to determine the County's credit rating and risk when it is seeking funding through the issuance of bonds or bond anticipation notes.

As the chart below indicates, the County's surplus diminished significantly during the 'Great Recession'. In 2009, the fund balance for the General Fund dipped to a low of \$16.6 million. At the end of 2011, the fund balance was approximately \$23.2 million - by the end of 2017 the General Fund balance had grown to \$46.3 million—an increase of almost 100% since the beginning of the current administration and the highest level in recent memory. Our combined fund balances for 2017 are \$62.2 million.

The consistent use of surplus to meet spending needs not backed by revenue has impacted the County's credit rating. In July 2010, The County's Aa2 credit rating was given a negative outlook by Moody's Investor Services. In September 2011, Moody's downgraded the County's credit rating once again, resulting in a change in grade level from Aa2 to Aa3. This rating was re-affirmed in the summer of 2013 and has remained stable since. The increase in our closing balance signifies that the County's financial outlook has improved and the County's credit rating should follow.

RESERVES

BACKGROUND

Albany County has established a number of reserve funds, which are segregated from the operating budget and intended to provide resources to meet future needs, contingencies, and capital outlays. These reserves were created through discretionary means and to satisfy certain legal obligations. Included in this section is a summary of Albany County's reserve accounts, along with the intended use of any reserve funds in 2019.
